DISCOVER PATHWAYS

- Certificate of Higher Education (CertHE) and Diploma of Higher Education (DipHE): first and second year of a degree course.
- Higher National Certificate (HNC) and Higher National Diploma (HND): HNC is a one-year industry specific course, and the HND is a two-year industry specific course. Higher technical qualifications (HTQs) in England are an example of these.
- **Foundation degree:** flexible vocational qualification, combining both academic study and workplace learning. It usually takes two years to complete.
- **Bachelor's or undergraduate degree:** a three to four-year course which can also be available as a part-time option, allowing you to study and work.
- **Apprenticeships:** typically take between 8 months to 6 years to complete depending on their level. Apprenticeships are offered for levels 2-7 in N.I. and England, levels 2-6 in Wales, and SCQF levels 4-11 in Scotland. All nations offer degree level apprenticeships.
